

DATA VISUALIZATION

Turn your data into immediate impact. Do more with less using an end-to-end BI platform to create a single source of truth, uncover more powerful insights, and translate them into impact at your credit union.

CREATE MEANINGFUL AND IMPACTFUL REPORTS FASTER

Utilizing the open database connectivity (ODBC) built into FLEX, your credit union can connect to tools such as Microsoft Power BI to quickly and efficiently build impactful visualizations.

Create Better Visuals

Easily connect to, model, and visualize your data, creating reports personalized with your KPIs. FLEX provides direct access to your credit union's data from within ODBC compliant applications.

Create Deeper Insights

Turn your data into a competitive advantage by using business intelligence (BI) tools to connect, combine, and analyze your entire database.

Turn Insights into Action

Go from data to insights and insights to action with business intelligence (BI) platforms to easily build business applications and automate workflows.

About us

FLEX has disrupted the credit union core system marketplace by enabling efficient solutions for digital transformation and sustainable growth. FLEX will allow credit unions to launch a full-service digital banking suite with innovative member-facing technologies and automated services. Credit unions will buy back lost time by remapping the digital journey and increasing member loyalty.

Grow with FLEX

- ✓ FLEX customers have experienced 10x growth or more following conversion.
- ✓ FLEX is scalable and will grow at your credit union's pace.
- ✓ FLEX credit unions are among the industry leaders in efficiency ratio.

GROW WITH FLEX 

Data Visualization Highlights

Create and modify data reports and dashboards easily and share them securely across applications, providing new views for deeper insights.

Apply the skills you already have from familiar tools such as Microsoft Excel to move from building to analyzing to presenting with less data prep.

Quickly start building reports and dashboards with help from free online learning resources and tutorials that you can share across your credit union.

Take your visualizations to the next level and empower everyone to quickly make data-driven decisions. Easily work together, collaborate on reports, and share insights across popular applications.

Create rich, interactive data visualizations from multiple data sources and share important business insights that drive success with business intelligence tools.

Do more with less using an end-to-end BI platform to create a single source of truth, uncover more powerful insights, and translate them into impact.
