TAKE PREBUILT SYSTEM REPORTS AND CUSTOMIZE THEM TO MATCH YOUR CREDIT UNION'S NEEDS.

Utilizing the comma-separated values (.csv) file extension, standard FLEX reports will be available for access from spreadsheet programs such as Microsoft Excel, Google Sheets, and more.

Create Custom Reports

Credit unions can now take pre-built FLEX standard reports and open them in Excel to make modifications to match their specific credit union's reporting needs.

Access Your Data Faster

Data access is now just a click away. For credit unions that prefer to work with standard FLEX-generated reports, there are over 900 of them, it will be as simple as changing the report output from PDF to CSV.

FLEX Release 8.05

FLEX release 8.05 will be required to be installed before reports will be accessible in comma-separated values (.csv) format.

About us

FLEX has disrupted the credit union core system marketplace by enabling efficient solutions for digital transformation and sustainable growth. FLEX will allow credit unions to launch a fullservice digital banking suite with innovative member-facing technologies and automated services. Credit unions will buy back lost time by remapping the digital journey and increasing member loyalty.

Grow with FLEX

Solution FLEX customers have experienced 10x growth or more following conversion.

FLEX is scalable and will grow at your credit union's pace.

FLEX credit unions are among the industry leaders in efficiency ratio.
